

The State of India's Birds 2020 report was the first attempt to assess the conservation status of the majority of India's bird species. Three years later, this second edition, State of India's Birds 2023 report provides an update based on a much larger information base, enabling more species to be assessed.

State Summary KARNATAKA

AREA (SQ. KM.)
1,91,791

NO. OF SPECIES
547
